Biographical Sketch
Lee Kittredge

Lee Kittredge has 20 years of experience in computer aided design and information technology.

Lee began his association with CPS in 1997 as a part time Unigraphics instructor. He joined CPS as a full time instructor and network administrator in 1998. Since 2000 Lee has served CPS both senior CAD instructor and IT manager. Lee has been responsible for the design and implementation of CPS's standard CAD curricula and for the development of customized CAD training for corporate customers. In his role as IT manager Lee has been responsible for specification, evaluation, purchase, installation, and maintenance of all CPS hardware and software assets.

Lee is a Dassault Systemes CATIA Certified Professional with expert certification in part design, assembly design, and surface design. He is certified by General Motors as a Unigraphics instructor and by Robert McNeel & Associates as a Rhinoceros instructor. Lee is also a Microsoft Certified Professional.

Lee is experienced with the administration of networks comprised of multiple OS's including HP-UX, Irix, Solaris, and the various versions of Windows. He is currently working on a project to implement an integrated CMS and SMS (School Management System) for CPS using open source software.
